The sole purpose of COINTELPRO was to destroy individuals and groups perceived as threats to the status quo in the United States. COINTELPRO was “officially” ended in 1971—although it never really ended. After the 911 attacks, the government went at it again, but this time with a scared and more dumbed-down complicit public. Exactly forty-six days after the towers came crumbing down Bush signed the USA Patriot Act. This virtually eliminated restrictions on law enforcement agencies’ ability to search telephone, e-mail communications, medical, financial, and other records. What we used to consider illegal eavesdropping is now reclassified as something else — an emergency. According to an official DOJ report, the use of “emergency”, warrantless requests to ISPs for customer communications content has **skyrocketed over 400% in a single year**. No outrage, no accountability. The majority of people are now more concerned about how to feed their families; civil liberties will just have to take a back seat until things improve.

The inequality and oppression in America now resembles that of a **third world oligarchy**. The only purpose of an oligarchy is to perpetuate oligarchic rule.

Hence, “change” is not a choice, lest the rulers might be held to account for their crimes. Upward mobility is no longer attainable; the days of “hard work and dedication bringing success” are over. It would be a slap in the face to say that to the more than “317,000 waiters and waitresses (over 8,000 of which have a doctoral or professional degree), along with over 80,000 bartenders, and over 18,000 parking lot attendants” Americans who graduated from college. The cancer of nepotism and cronyism are the order of the day. It is mathematically impossible to hold a job while paying for exorbitant college tuition, unless of course you come from the fast-shrinking upper-middle class.

The majority of voters voted for Obama in 2008 because they wanted change. The word “change” did resonate in the hearts of Americans, but, unfortunately, the people were once again bamboozled. Fool me once, shame on you; fool me twice, shame on me. Voting appears to be the least viable solution; the more productive path is to organize locally. The following list of books contains sources not often cited by mainstream media . . . and there is a reason for that. These books promote critical thinking, revisit the coverups of history, and promote individual empowerment. They should be read widely in order to raise awareness of the situation facing America today, so that we can take back what has been taken from us.

The descriptions of each book are generally sourced from their product sales points, and have been edited for brevity. In some cases where official product descriptions were not available, a summary of important points is offered. Each

These are the books that have been most instrumental in my research. I would love to learn what books you have found to be most helpful. Please share your thoughts and suggestions with others in the comments section below.

21. **Propaganda**, *Edward Bernays*

Media control and propaganda is how the rest of what is contained in the books that follows is ever made possible. Without belief in the orchestrated events of history, the tactics employed by the ruling elite could never work. This is an essential place to start to learn how human perception is altered so that a false reality can be created and accepted. Or, as Bernays himself said, "The conscious and intelligent manipulation of the organized habits and opinions of the masses is an important element in democratic society. Those who manipulate this unseen mechanism of society constitute an invisible government which is the true ruling power of our country."

20. **Big Brother: The Orwellian Nightmare Come True**, *Mark Dice*

High-tech spy gadgets, mind-reading machines, emerging artificial intelligence systems, and government projects seem as if they came right out of George Orwell's novel *Nineteen Eighty-Four*. Mark Dice illustrates how what was once considered fiction has now become reality. Dice shows you the scary documentation that Big Brother is watching you, and is more powerful than you could imagine. Learn about mind reading machines, cybernetic organisms, neural interfaces, and more.

19. **What I Saw That Day Israel's June 8 1967 Holocaust of US Servicemen Aboard the USS LIBERTY and its Aftermath**, *Phillip Tournay*

Personal eyewitness testimony of Phil Tournay, US Navy Petty Officer concerning Israel's 2 hour attack upon his ship USS LIBERTY on June 8, 1967 and the following cover-up by the US government.

With DNC Wrapped FBI Director Suddenly Declares "Success Against ISIS Means ... MORE Terror"

18. The County Sheriff: America's Last Hope, *Sheriff Richard Mack*

Sheriff Mack's latest book covers decades of research to prove once and for all that the sheriffs in this country are indeed the ultimate law authority in their respective jurisdictions. The sheriff absolutely has the power and responsibility to defend his citizens against all enemies, including those from our own Federal Government.

17. Corporatism: The Secret Government of the New World Order, *Jeffrey Grupp*

Corporations control all basic resources of the world, all the governments and institutions, and prevent us from solving humanity's problems. Their New World Order plan is the global 'prison planet' that Hitler was aiming for.

16. Confessions of an Economic Hit Man, *John Perkins*

An extraordinary and gripping tale of intrigue and dark machinations. Perkins writes about the Enron-style of cooking the books to convince foreign governments to accept billions of dollars of loans from the World Bank and other institutions to build dams, airports, electric grids, and other infrastructure he knew they couldn't afford. The loans were given on condition that construction and engineering contracts went to U.S. companies.

15. JFK: The CIA, Vietnam, and the Plot to Assassinate John F. Kennedy (Second Edition), *L. Fletcher Prouty*

Colonel L. Fletcher Prouty, the former CIA operative known as 'X,' offers a history-shaking perspective on the assassination of president John F. Kennedy. His theories were the basis for Oliver Stone's controversial movie *JFK*. Prouty believed that Kennedy's death was a coup d'état, and he backs this belief up with his knowledge of the security arrangements at Dallas and other tidbits that only a CIA insider would know.

Technology on 9/11, *Judy Wood and Eric Larsen*

This book is a forensic analysis of what effectively is a crime scene. Ground Zero and the surrounding areas were photographed countless thousands of times, yet no one really assessed all of the phenomena found in these photographs. What is presented in this book is not a theory and it is not speculation. It is evidence. It is the body of empirical evidence that must be explained in order to determine what happened at Ground Zero.

13. Tragedy and Hope, *Carroll Quigley*

1,359 pages of details about how the New World Order really works. A confession from one of the architects of the power elite and the structures they use to divide and conquer the planet.

12. None Dare Call it Conspiracy, *Gary Allen*

This is the counterpart to Quigley's tome. At just 197 pages, Gary Allen distills the machinations of the political, banking, and elite think tanks into the most concise book ever written about how it is possible for a small group of puppet masters to direct world events and control entire populations.

11. American Assassination: The Strange Death of Senator Paul Wellstone, *James H. Fetzer*

Senator Paul Wellstone was, "the first 1960s radical elected to the U.S. Senate." In Senate Race 2002, the White House made defeating Wellstone priority #1. Karl Rove hand-picked arch Republican Norm Coleman to run against him. Despite massive funding, Coleman was trailing the popular Wellstone two weeks before election day. Then, tragedy struck. Ph.D. Professors James Fetzer and Don "Four Arrows" Jacobs present the harrowing truth. The weather didn't bring down Senator Wellstone's plane.

9. **Human Race Get Off Your Knees**, *David Icke*

The manipulation of the human race and the nature of reality are continually taken to the highest levels by David Icke. Very few researchers are willing to walk the paths David has. In this book, he brings back even more new startling information about the destiny of mankind.

8. **The 9/11 Commission Report: Omissions And Distortions**, *David Ray Griffin*

Everyone who cares about the fate of American democracy will want to know something about what the pages of the report actually say. The Commission's account, by popular reckoning, has made an impression with its heft, its footnotes, its portrayal of the confusion of that sobering day, its detail, its narrative finesse. Yet under the magnifying glass of David Ray Griffin, eminent theologian and author of *The New Pearl Harbor*, the report appears much shabbier. In fact, there are holes in the places where detail ought to be thickest. Griffin's critique of the Kean-Zelikow report makes clear that our nation's highest leaders have told tales that wear extremely thin when held up to the light of other eyewitness reports, research, and the dictates of common sense.

7. **63 Documents the Government Doesn't Want You to Read**, *Jesse Ventura*

The official spin on numerous government programs is flat-out bullsh*t, according to Jesse Ventura. Ventura proves it beyond any doubt with this incredible collection of actual government documents, including previously classified papers that were brought into the public domain by WikiLeaks. He scours through this treasure trove of documents to bring to light how we've been duped into wars we shouldn't be fighting, lied to about intelligence, fed hogwash about terrorism, and tricked into losing more and more of our civil liberties. addition to providing original government data, Ventura explains what it really means.

6. **Stranger Than Fiction**, *Albert D. Pastore*

The true story behind 9-11, delivered by a meticulous researcher. . . “Every news story about 9-11 that is contained in this book is true and easily verifiable,” states author, Dr. Albert D. Pastore [a penname]. “My investigation represents 12 months of careful study, painstaking research, detailed analysis, source verification and logical deduction.

5. **9/11 Synthetic Terror: Made in USA, First Edition**, *Webster Griffin Tarpley*

The thesis of Webster Tarpley’s book has been enthusiastically received with its working model of the 9/11 plot – a rogue network of moles, patsies, and a commando cell in the privatised intelligence services, backed by corrupt political and corporate media elites. Buttressed by historical examples like the Baader-Meinhof Gang and the Gunpowder Plot, this model makes it clear how such a monstrous false-flag or self-terror exploit is possible even under a largely benign government.

4. **Snitch Culture: How Citizens are Turned into the Eyes and Ears of the State**, *Jim Redden*

In this alarming exposé, investigative journalist Jim Redden examines how snooping has become so much a part of American culture that it is practically a family value, encouraged on billboards, television, and even in classrooms. From employees hired to spy on their coworkers to doctors forced to disclose medical information, the U.S. has developed a chilling network for monitoring its citizens. Worst of all, the information gathered – and widely disseminated – is often unreliable, solicited from paid and anonymous informants. This book was written in 2000 and is even more disturbing to witness in hindsight all that has come to pass both domestically and abroad as the War on Terror has been given carte blanche to use any means necessary to expand the power of the State. spy network is the hallmark of tyranny and Redden's book concisely presents its evolution even within democratic countries.

3. The Creature from Jekyll Island : A Second Look at the Federal Reserve, G. Edward Griffin

This is the classic exposé of the Fed that has become one of the best-selling books in its category of all time. Where does money come from? Where does it go? Who makes it? The money magician's secrets are unveiled. Here is a close look at their mirrors and smoke machines, the pulleys, cogs, and wheels that create the grand illusion called money. A boring subject? Just wait. You'll be hooked in five minutes. It reads like a detective story – which it really is, but it's all true. This book is about the most blatant scam of history. It's all here: the cause of wars, boom-bust cycles, inflation, depression, prosperity. Your world view will definitely change. Putting it quite simply, this may be the most important book on world affairs you will ever read.

2. War at Home: Covert action against U.S. activists and what we can do about it, Brian Glick

This book was written in 1989 and provides thorough coverage and analysis of the FBI's COINTELPRO program which targeted political activists. Beyond the program itself is the cultural analysis which is more important than ever, as COINTELPRO 2.0 has been launched in the wake of the War on Terror. The methods used abroad in counterintelligence have come home to roost. The plan for what activists can do to protect themselves is more valuable than ever.

1. Winter Soldier: Iraq and Afghanistan: Eyewitness Accounts of the Occupations

Iraq Veterans Against the War

“The only way this war is going to end is if the American people truly understand

what we have done in their name.”—Kelly Dougherty, executive director of Iraq Veterans Against the War. In spring 2008, inspired by the Vietnam-era Winter Soldier hearings, Iraq Veterans Against the War gathered veterans to expose war crimes in Afghanistan and Iraq. Here are the powerful words, images, and documents of this historic gathering, which show the reality of life in Afghanistan and Iraq. Iraq Veterans Against the War argues that well-publicized incidents of American brutality like the Abu Ghraib prison scandal and the massacre of an entire family of Iraqis in the town of Haditha are not the isolated incidents perpetrated by “a few bad apples,” as many politicians and military leaders have claimed. They are part of a pattern, the group says, of “an increasingly bloody occupation.” If we are ever to restore sanity to our foreign policy, we must have all of the facts. Empire America is bankrupting its citizens and leaving a legacy of shame. This is the single most important book in stripping away the naive and innocent version of war that the mainstream media fosters at the behest of the American government.

Stranger Than Fiction is definitely my favorite book on the list. Covers so much of the real issues going on that most "conspiracy" writers are too pussy to.

here are some others that should be high on the list

Douglas Reed - Controversy of Zion

Eustace Mullins - The World Order

Jackie Patru - Jewish Persecution

Andrew Carrington Hitchcock - The Synagogue os Satan (provides a solid Rothschild Family timeline)

and the TOP book and mother of ALL conspiracy books/document of course is"

THE PROTOCOLS OF THE ELDERS OF ZION!!!

regardless of who you think wrote this document, EVERYTHING that was written in it in 1905 has been proven fact!

obviously, the "elite" have followed the plan within the document to perfection...

cheers for your awesome work,
much appreciate it!

Everyone here is missing one that spells it out startlingly well. The manuscript was started in 1951 and finished in 1956 and sat on this writers mantle for 22 years and was put to print 2 years after he died. If they knew he was writing it, they would have assassinated him before he could finish it. It's as or more relevant today than in his time. From a master writer and historian.

"The Controversy Of Zion" By Douglas Reed

Jyri Linas "Under The Sign Of The Scorpion" is probably the most supressed book in present time. The political establismment is so scared of the book that they on Amazon have set the price to \$157.95 and only have two new books for sale, also this book

can't be bought over desk in bookstores, but you can order it from Texe Marrs or directly from the author.

The book describes how secret societies, for hundreds of years have been active behind closed doors, to direct us toward a global dictatorship (NWO), by false revolutions, wars, Marxism and other means.

Excellent reading list above, and many great suggestions as well. If I could add one book it would be "The Law That Never Was" by Bill Benson. Benson, a former IRS investigator, lays out the case that the 16th Amendment to the Constitution - which "allows" the Federal Govt. to collect a personal income tax from every member of the public - was never legally ratified and, in fact, was fraudulently claimed to be "the law" by then Secretary Of State Philander Knox. The implementation of the income tax turned the public into "tax paying units" - in the words of former Treasury Sec. Hank Paulsen - for the benefit of those at the top of the US political pyramid, and gave those in the "US Government" the financial resources to create the "Global Empire" that we are now paying the price for today.....

good list except for David Icke...I mean seriously...? Multi-dimensional-reptilian-aliens-wearing-red-dresses-projecting-a-reality-matrix-from-the-moon DAVID ICKE...?! Seriously???

2 ^ | v • Reply • Share ›

Devoted_Student_079 ➔ Anonymous • 2 months ago

Dude, your conclusion on Icke is totally Misconception. at first when i read Icke's books, i thought like you but gullibly still brought into the Conspiracy theory. It's only later when i was researching the topic, that i found that Reptillans aren't fucking Lizards. they're what Christians call Demons and that they operate outside of Human sight pulling the strings. the queen isn't

a reptile but possessed by a demon. Icke uses cryptic language, because he doesn't wanna end up dead. if people think he's a loon it keeps him alive even if he is ridiculed. Icke is the backbone of all this alleged conspiracy theory regarding illuminati that's why he is most hated. read some of his older material like "It doesn't have to be like this" and you'll see he is not nuts as people proclaim. As for projected from the moon, again that's what i use to think, it's only when i read deep enough i learned that's not what he's saying. he is saying this whole universe a is a Pantheist Holographic Virtual fake reality, and the whole universe never had a big bang (i disagree with that part) because it's fake. he said God doesn't exist, and God is no more than the demiurge which is satan the fake god. Satan and God aren't real but the demiurge is a collective demonic energy which has the collective name satan. it pretends they is a god to keep us brainwashed. this energy can cause projections to people in there sleep as god or satan to mislead people, it loves to keep the christians brainwashed. he said other universes exist but they're not fake and exist outside the 3rd dimension. this reality is created by demonic E.T forces. E.T'S and demons are the same thing.

I would never have believed any of Icke's crazy conclusions before looking at the evidence he provides. He's just aggregating information from other sources. His conclusions are sound. Good, trusted researchers agree.

Which good, trusted researchers agree with David Icke? Name them.

In anycase there's ample evidence from his own writings that Icke is just another conduit for the same forces he claims to be exposing.

Wow, I've read only 2 books in the article's list, but several recommended in the comments.

Sheriff Mack's book looks most interesting -- I'm going to get that next. And I really want to read Icke's new book, too.

So, to give my list:

Seeds of Deception, William Engdahl

Crossing The Rubicon, Michael Ruppert (the book that woke me up in 04)

Animal Farm by George Orwell -- short and haunting

Shock Doctrine, Naomi Klein

Endgame, Derrick Jensen (both volumes) ****

And the book that got me to go back and finish my degree:

The Diversity of Life by Edward O. Wilson

This collection is quite bad, compared with the more important works available on related issues. Many are available in leading book stores and receive national promotion via radio/tv outlets.

No book by Eustace Mullins?

The first author to expose and document the history of the Federal Reserve System in 1952 -

all printings issued being banned and burned in 1955' Europe. The original source study for everything you've ever learned about the Federal Reserve - later being copied, disorted, twisted and watered down in 1994 by G. Edward Griffin's (The Creature From Jekyll Island) which promotes and secures the 'system' with Gold Standard 'solutions' - Who owns the largest Gold reserves and capital to corner the market? The same elite houses of course!

IMO this article was compiled by someone with less than 2-3 years research - which isn't a problem, though much more work is needed.

Antony Sutton, Douglas Reed, Stephen Zarlenga are (3) others which hold more importants than anyone mentioned here for the source studies.

'World Peace - The Transition' will be a disappointment for die-hard conspiracy minded. However, this book is a comprehensive action plan that just explains how to fix our democratic voting system, it explains consisely how to automate our current manual economy to provide all of our basic needs robotically (which makes money less important sustainably anyway), and it teaches our kids and selves how to manage capitalism's normal 60 year boom-bust cycles. Easy, no-one dies, science wins. It's a must read for anyone who wants to talk about a real implementable, properly engineered and scalable solution for the sustainable society that we all want for our kids.

"The Politics of Heroin" by Alfred McCoy - lots of detail about U.S. Govt. agents [CIA, DEA, FBI] helping the South-and-Central American drug barons move their heroin and cocaine safely into the mainland U.S.A.. McCoy also tells us WHY the CIA is involved with illegal drugs; Death Squads and "The House of Horrors" descriptions will erase any foolish notions about governments and leader's having any sense of morality, respect for human rights, etc. And - the US Banking industry depends on illegal drug money too - read this book to learn the disturbing truth.

Perhaps if some of the "sheeple" stop playing with their electronic toys while simultaneously watching the alphabet tv stations and reading the MSM government approved propaganda garbage, they'll experience an epiphany and realize they're living in an altered reality. A world of carefully contrived lies and false narratives proffered by the Elite Ruling Class that want a world of pliant "useful idiots" to serve them. Deductive reasoning and cognition is antithetical to their mission. There are many publications available to present a more accurate vision of reality including those listed in the attached article. That's why the Ruling Elite don't want you to read them. It's basic '101' information but at least it's a compelling starting point to see through some of the lies they've been feeding you.

I see the anti-Semitic cretins continue to spew their vomit - not all here, but there are always some rotten apples. What these COINTELPRO traitors or neo-Nazi pieces of trash accomplish by focusing on all things Jew is the complete and utter discrediting of every patriot and truther on the planet. Sheeple who read all of the anti-Jew rhetoric quickly conclude that all "conspiracy theorists" are neo-Nazi trash. Thus, the truth movement is FOREVER relegated to a fringe movement that will NEVER gain mass appeal. And we wonder why more people don't come over to our sides. Freaking dolts. It greatly depresses how many numbskulls for fall this psy-op. Thus, many self-proclaimed patriots wind up shooting themselves and the movement in the foot. Of course, some of these people are no doubt COINTELPRO. The opposition has been completely controlled. Consequently, I have given up on the masses ever awakening in time and I will enjoy the remaining time I have left on this planet and no longer tell people about the NWO. That is my New Years Resolution. Freaking retards.

Momo, by Michael Ende. Though short in pages and being "just" a fairytale (not only for children..), anyways it easily is on par with the above mentioned books in eye-opening capability.. Seriously, it is. :)

I haven't read all 132 comments, so I'll just throw my two cents in and apologize if

someone mentioned it already; The Gods Of Eden. Author; William Bramley. From the 1970's. He makes an extremely strong case that beings from other than earth created us and have been (similar to the second or third Matrix) presenting us with saviours. Don't scoff until you read it! It's a truly indelible book.

I would definitely add three books to the list which expose the "how", the "who" and the "why" of 9/11. Both provide excellent material for a realistic indictment of key players. "Another Nineteen" by Kevin Ryan and "Black 9/11" by Mark Gaffney, and Michael Ruppert's "Crossing the Rubicon". And, additionally, the two scientific papers written by a group of scientists, including Dr. Steven Jones, PhD., "Why Indeed Did the WTC Buildings Collapse" and "Active Thermite Material Discovered in Dust from the 9/11 World Trade Center Catastrophe"

Phillip Marshall, The Big Bamboozle. Marshall was a pilot and former CIA. I believe he was murdered over this book. So were his two young children. Some gave all when trying to expose the corruption. RESPECT to the Marshall Family.

Add "Seven Who Dared" by Soul Esprit, to the above list of books the Illuminati doesn't want you to read. Amazon - owned and controlled by the Illuminati - won't even fill orders to buy this book and won't post reviews of it on their website. This is the most dangerous book in the world today because it exposes the clandestine activities of those who rule the world.

You had me for a moment, right up to #20 "Big Brother: The Orwellian Nightmare Come True, Mark Dice" Mark Dice is an egotistical, idiot pretending to have brains. There are so many better choices for this list than his diatribes.

Hard to believe nobody else knows about "America's Nazi Secret" by former DOJ attorney John Loftus. It's apparently banned from mention in the media. Loftus was a DOJ lawyer hunting down escaped Nazi war criminals and became aware of some of the most powerful figures in the government actually partnering with some of the worst war criminals--before, during, and after WW2. Absolutely stunning, he even explains where Lyme disease came from (web search the distribution pattern).

All the books by Antony Sutton are indispensable, effectively they serve as a twin

body of work to Loftus. Once you comprehend the material you see that the academic version of the 20th Century is one gigantic lie of omission; the investment banking class was economically, strategically integrated with the empowering of

In the center is an image of fresh vegetables (lettuce, tomatoes, peppers) on a bed of green. On the right, the text 'Aquaponics 4 You' is written in a stylized font, with a blue button below it that says 'CLICK HERE NOW!'.
